# ABOUT JIM VIERRA

Over the years, Jim Vierra & Friends has had the honor of working with some of the top talent in Nashville, Tennessee . All songs by Jim Vierra & Friends are original, written by Jim Vierra himself or some of his closest friends and fellow songwriters. Jim Vierra & Friends continue to enjoy the ride and experiences they've had, knowing the best has yet to come. Jim Vierra's fresh and heart-warming approach makes him one of the top music producers/songwriters in the Nashville area.

Hypnotized by his smooth and soulful country rhythms you'd never know that Vierra doesn't even listen to country music that much. He states, " What is funny is I don't even listen to much country music at all. I love Jazz and old rock n role. The music just comes to me and happened to have that country flare." He prides himself on hand-selecting top quality demo singers to bring his music to life. With Jim, the lyrics comes first, but sometimes he already has a tune in his head.

# JUST ONE TOUCH

A strong Gospel song featuring an outstanding gospel singer, gospel choir, and live orchestra. This song is based on the woman in the bible who knew all she had to do was just get through the crowd to touch the hem of Jesus and she would be healed. We all need one touch from the Lord, some more than others. This song lifts you up and encourages all of us that just one touch is all we need.

# HOLY OF HOLIES

I wrote this song almost 30 years ago and decided to bring it into a current gospel setting featuring an amazing male vocalist and accompanied by a live orchestra with an amazing gospel choir. This song is based on our journey to pursue the Lord and his holiness and has a continual plea to be brought into the presence of the Lord.

# TESTIMONIALS

"Great songwriting touches your soul! Your songs do that!"

- Kelesha Martin

"Wonderful vocals. Enjoying your musical style very much. Would love to do a project with you someday. Take Care."

- DiPaolo

Enjoying "So Beautiful!" Sweet! Awesome vocals too!<3

- Debi Lynn Philips
